**I will go to the dentist.
They will take pictures of my teeth
and maybe clean them.**

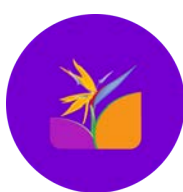

**The office will have sensory items
that I might like.**

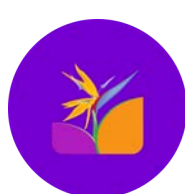

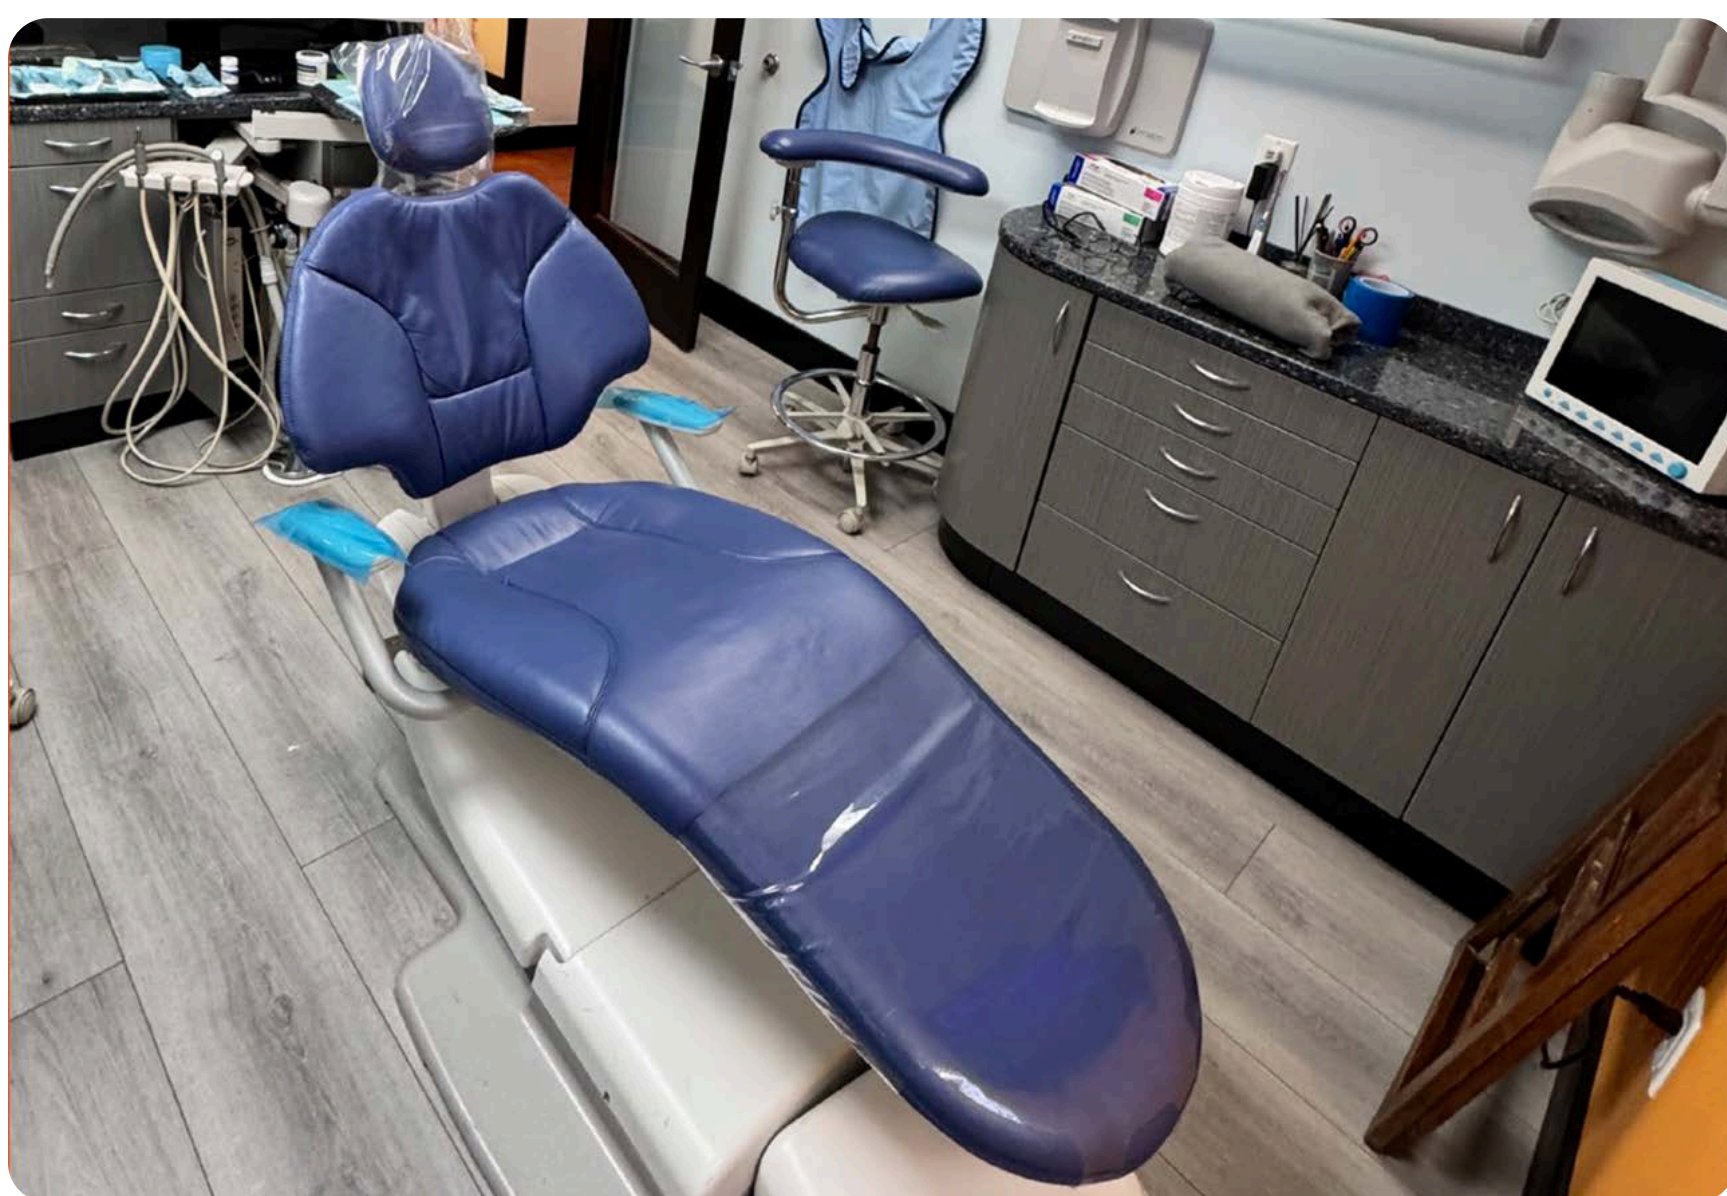

Then I will check in at the front desk.

**I'll wait in the waiting area
until they call me to come in.**

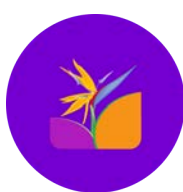

They will have me sit in the big chair.

The chair reclines all the way back.

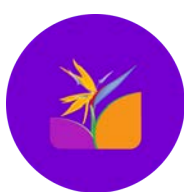

They might take pictures of my teeth.

If I want, I can take a break.

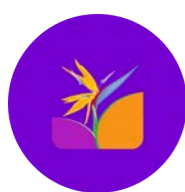

The doctor will put a small piece of film in my mouth, they will ask me to bite down.

I will try to stay still and not move my body.

When I am ready, the doctor will place a camera next to my cheek and the camera will take pictures of my teeth.

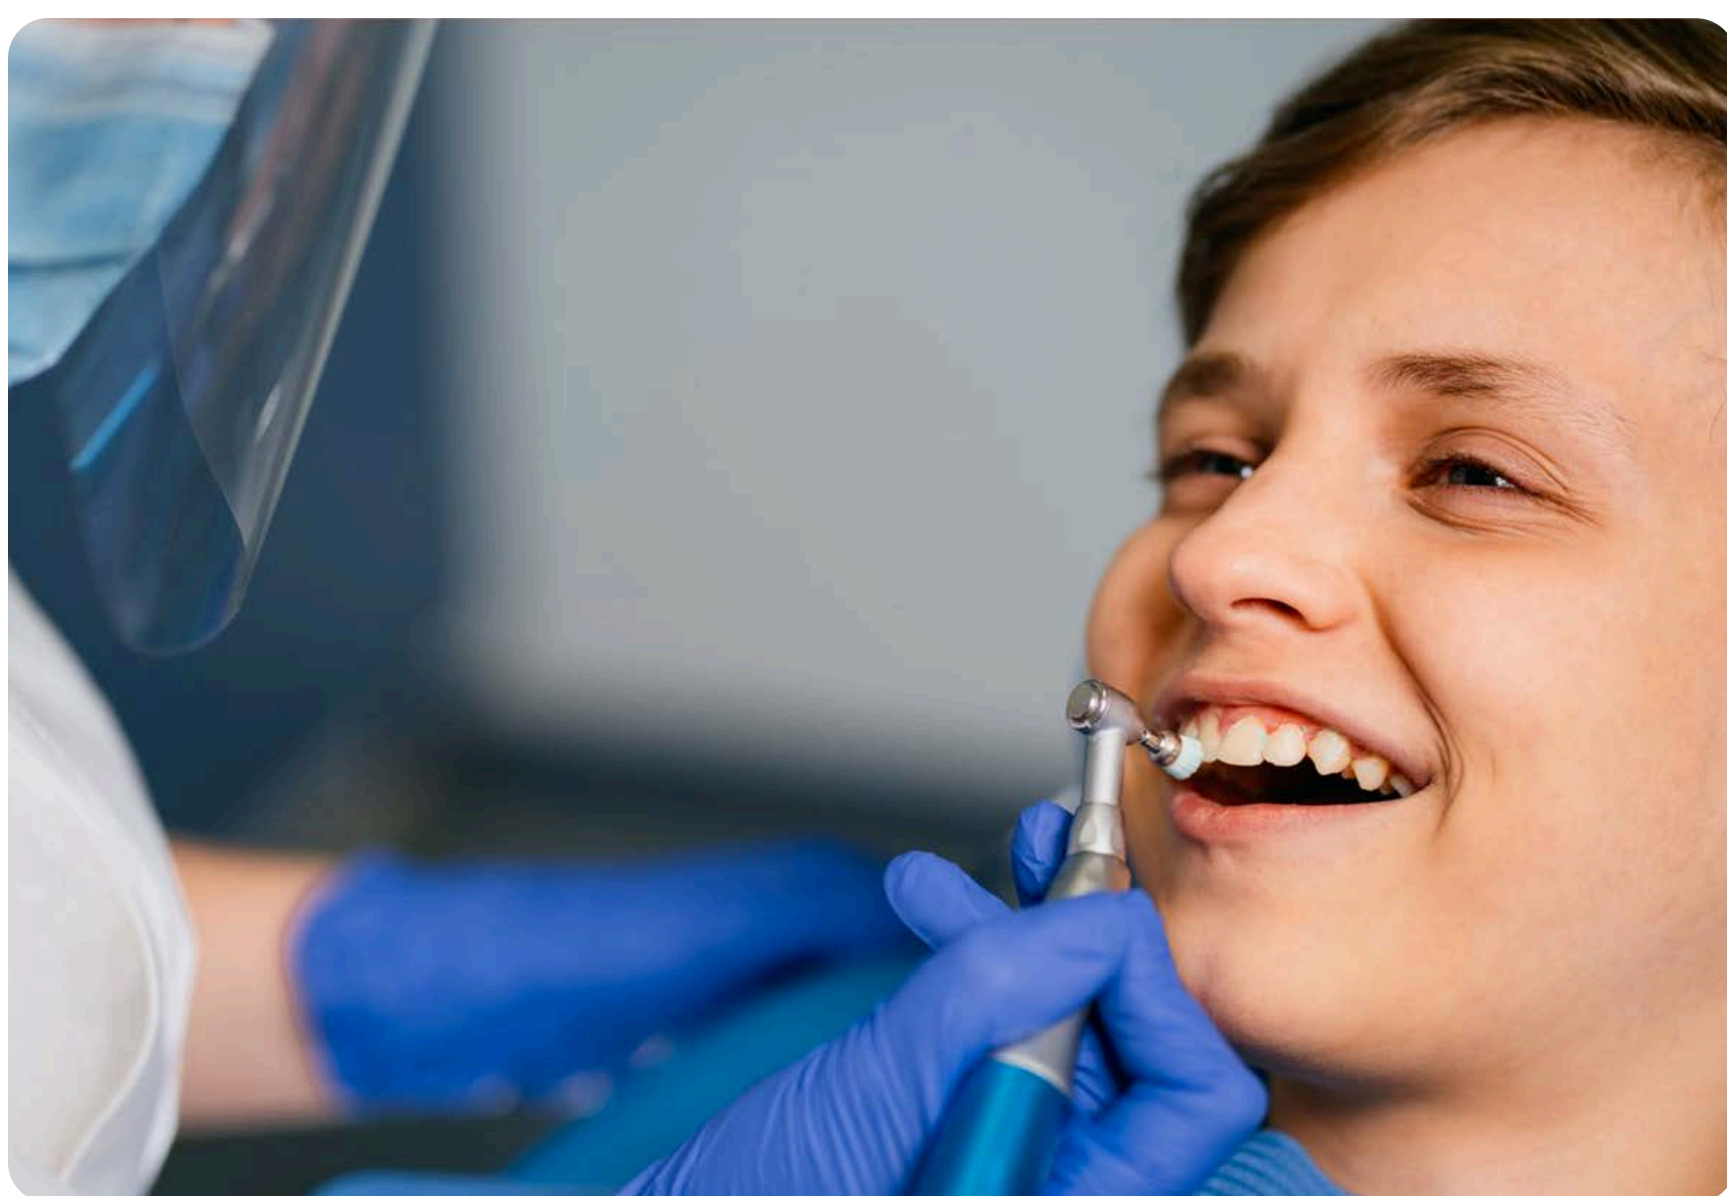

It's ok to be a little nervous.

**That's why you might want to bring
comfort items from home.**

**The office will also have some sensory
items that might help me stay calm.**

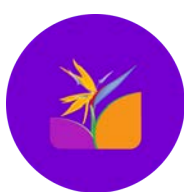

**Now the dentist will clean my teeth,
I can pick the toothpaste flavor.**

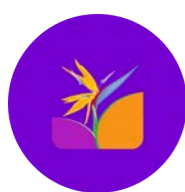

After cleaning the doctor will rinse my mouth and use a special straw to remove the excess water.

**After the doctor is done, my teeth will
feel clean.**

Everyone at the dentist's office tries to be friendly.
